Dear Greg,

I would like to thank you for the quick response to our screen sizing. The new file worked GREAT.

I would also like to let you know how much we have been using both Sun Detective and the new Sun Server Software. As a help desk, having quick access to information is a necessity. We have all found that the organization of the databases has made finding that information much easier than referring to books. The setup is pretty straight forward so updates are easy to install. Using the hypertext makes finding reference material fast.

Thanks Again,

Sincerely,

Grady H. Taylor
